prahkg@iitk.ac.in
Project Number : 24

14th November, 2014

1 Problem Statement

1. Creating the web service with sign In and Sign Up facility.
2. Users can upload books (onlynames) and papers.
3. Book names and papers will be visible to all users.
4. Best paper or Best book will be preferred.

2 Method Used

3 Results

Login and Registration page has been created.

4 Conclusions

Next I will create the user interface. Where he/she can uploda books (only names) or papres. and he/she can also see all the books and papers.
